

**BIO
PHOTON**
EMPOWERED

*PROMOTING CELL
HYDRATION*

“Matter is energy” - Albert Einstein

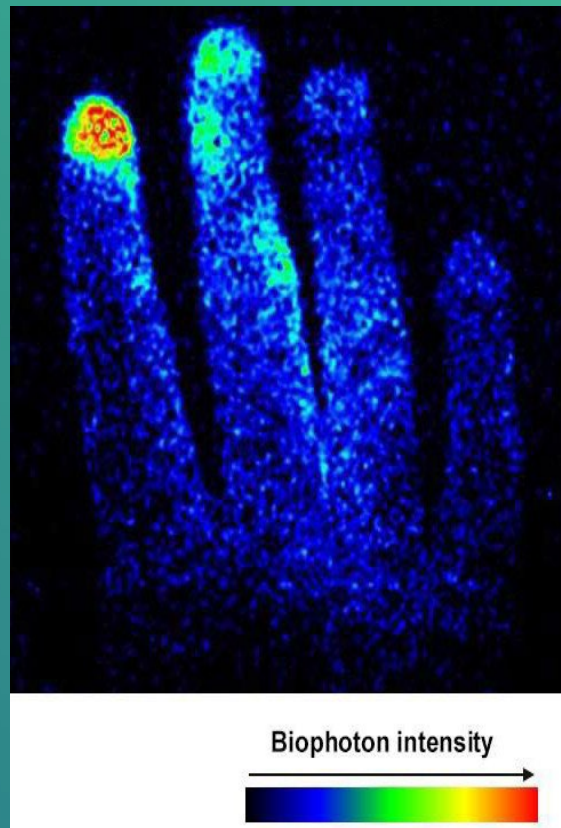

Matter is comprised of energy. In fact when you get down to the subatomic, there is no matter at all.

*Empowering , Bio-photon
Frequencies, Energies & Vibrations
can now be transferred through
Smart Phones*

BIO PHOTONS

***Bio-Photons are produced
In the low visible light range.
All cells use them for communication.***

They are found in ALL living biological systems

BIO PHOTONIC WATER

**Crystalline Water structures
Are found in spring water and
Improve hydration. This fact
has been known for decades.**

New technology has now harnessed Bio Photons
in order to create crystalline structures in your drinking
water.

Your children loved ones and Pets will also enjoy the
benefits of crystalline liquid structures.

ONE System 2 FUNCTIONS

Hydration

- developed specifically to improve hydration by creating crystalline liquid structures WITHOUT emfs

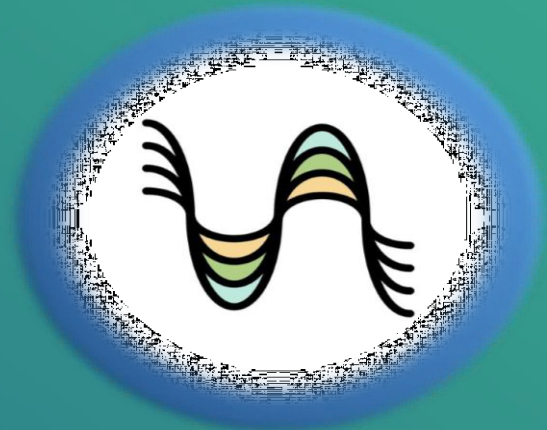

MIST SPRAY

Lightly mist the energising water spray, over your clothes throughout the day and optimise your Strength Stamina and Balance

**Hydration
Function**

**L.I.F.E.
Function**

Electro Magnetic
Radiation (Wi-Fi, Mobile
Phones and electronic gadgets)
Can be conducted by bottled liquids
The Electro Smog can cause oxidation
in the liquid. By using the APPS Bio Photons
over the the liquid , a donor ion is added. T
This action creates a natural Crystalline Structure that
negates the Oxidative stress , enhances the hydration,
taste and aroma of the liquid.

**Increased
Absorption**

**Improved
Taste**

**Assists
Detoxification**

**Enhanced
Hydration**

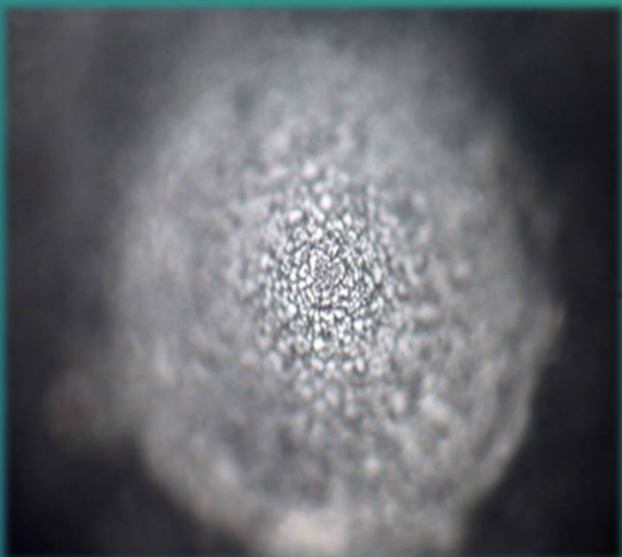

**Extends
Shelf Life**

**Fresher
Tasting Liquids**

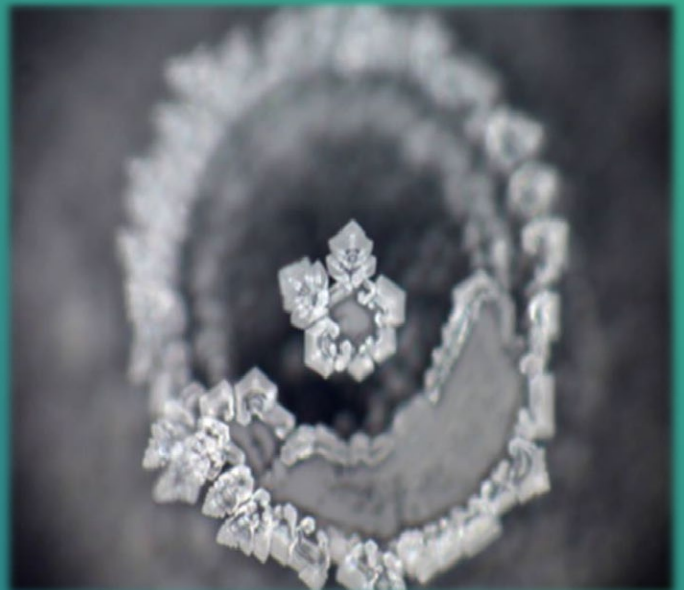

CRYSTALLINE STRUCTURES

*Results conducted at the
Hado Emoto Institute
Tokyo Japan*

Before

After

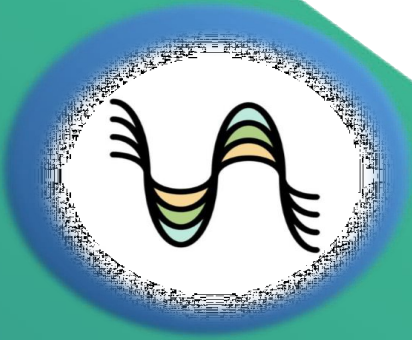

Press the Hydration Icon on your Smart Phone.

Rest the Phone on top of the glass or cup. When the light and frequency vibration ends : Everyone notices the liquids improved taste as well as a silkier texture and lighter colour.

The reason being, most liquids lose their original molecular clusters after exposure to *Electro magnetic waves*

The Photon frequencies rejuvenate natures crystalline structures in all liquids. Try it on Milk – Your children will love the improved texture and taste., as will your pets.

Click the Genomic icon on your cell phone

Play The Light Of The App Over The Water As You Are Filling A Misted Water Spray Bottle. The crystalline structures enhance Ionic values in the water, which have been known to negate the effects of Electro Smog and Stress.

Lightly Mist The Crystalline Water Spray over your clothes and head during the day to notice an improvement in : Balance, Strength and Mental Prowess.

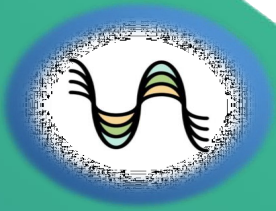

Zoom Bio Photons to Others

The Hydration Function can be demonstrated over any video conferencing facility. Even when the participants on the call are tens of thousands of kilometres apart. While you are shining the light frequency onto to your computers camera; The recipients of the Bio Photons, simply hold their glass or cup of liquid up to their Computer screen. The recipients will taste and feel the difference in their liquids as well as to see their balance and strength immediately increase!.

HYDRATION

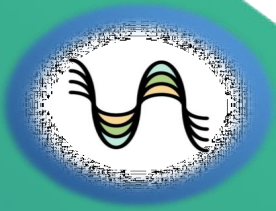

Electromagnetic field (EMF)

-is a modern age invisible pollutant, which surrounds us all. These invisible pollutants have become part of our everyday life as we do need them to run our Mobile Phone, Wi-Fi, GPS and other electronic gadgets.

The Photonic Charging System will help alleviate the issues caused to our health and wellness. This technology will also improve our energy levels and much more!

Use the LIFE frequency misted water to help minimize the potential cellular impacts from all Electro Smog, EMF and ELF Radiation !
